

## QLIKVIEW DEVELOPER

### Duration

3 Days

### Recommended Prerequisites

Designer Course – Recommended

### Who Should Attend

QlikView Designers, QlikView Developers

### Course Description

Developer is a must if you are building QlikView documents. Knowledge of the data model, creation of the proper data connections and scripting fundamentals are critical to creating QlikView documents that provide your organization with powerful business discovery tools. QlikView Developer provides you with an opportunity to learn by doing through a series of lectures and hands on exercises focused on developing QlikView documents. Beginning with the QlikView environment and ending with an introduction to advanced interface design, the Developer course will prepare you to take your QlikView documents to the next level. The course concludes with a new business case where you can practice your skills in building a QlikView document from the beginning using identified key performance indicators.

### Learning Objectives

By the end of this course, you will be able to:

- Create a data model in QlikView
- Build a QlikView document
- Resolve data structure issues
- Access the Debugger
- Define the advanced uses of the script editor
- Use transformative Functions in the script
- Create a Synthetic Key
